

PETRONAS ETRO 6

Range: PETRONAS ETRO

Long description: PETRONAS ETRO 6 is a high quality Group III base Oil, manufactured from a unique feedstock by using a proprietary hydrotreatment and wax isomerization process and hydrofinished to a colourless liquid. The base oil is highly isoparaffinic and exhibits a very high viscosity index as well as superior lowtemperature performance. It has an excellent viscosity-volatility relationship. PETRONAS ETRO 6 is registered by NSF for categories H1 (use as lubricant with incidental food contact) andHX-1 (ingredient for use in lubricants with incidental food contact).

- Viscosity at 100°C: 6,12
- Viscosity at 40°C: 34,25
- Viscosity Index: 127
- Noack: 6,5
- CCS Viscosity at -30°C: 4765
