

PETRONAS M500

Range: PETRONAS M500

Long description: PETRONAS M500 is a high quality Group II+ base oil, manufactured from a proprietary hydro-treatment and wax isomerization process and hydrofinished to a colourless liquid. The base oil is highly isoparaffinic and exhibits a high viscosity index with an excellent viscosity-volatility relationship.

- Viscosity at 100°C: 10,5
- Viscosity at 40°C: 79,4
- Viscosity Index: 116
